ALL
COMPONENTS
ALSO COMPATIBLE
TO
...

- > Multi-functional, intuitive light controller with flexible digital RGB LED strips.
- > Uncomplicated + instantly compatible
- > Synchronised light effects for inside AND outside your PC
- > integrated HighSensitivity Microphone for two music modes
- > includes # 1 and „the thick one“ – 2x xcd 3.02 in 45 cm length –a team that will impress you!

easy!

- > #1 LightControl # 1 controls synchronously the lighting of all Components inside and outside your PC – on your desk, on your wall, or the backlight of the monitor.
- > Big Lightmaster: 15 pre-programmed light modes, twelve colors + a huge RGB spectrum of available color as well as five brightness and speed levels quickly and flexibly via key control.
- > The controller integrated High Sensitivity MIC picks up ambient sounds and converts sounds and music into light effects.
- > All boards and other components with a 3pin + 5V, DATA, GND [xx x] connector for addressable LEDs are compatible with the # 1 LightControl.
- > For a uniform and cool look, the controller in a sophisticated design is illuminated like all your other components too.

FEATURES OVERVIEW

- > illuminated plug and play controller with a 32 bit high end microprocessor
- > synchronizes your lighting inside and outside your PC
- > synchronizes your lighting inside and outside your PC
- > integrated HighSensitivity microfon
- > 15 pre-installed, changeable effects with countless color adjustments
- > compatible with all mainboards with 3pin RGB header.
- > Expandable through the software control of your compatible mainboard.
- > 12 pre-installed colors, 2x Rainbow modes plus freely selectable colors within the RGB color spectrum
- > integrated magnets for mounting on all metallic surfaces
- > sleeved cables
- > Rubberized base to protect your case and for a slip and scratch resistant use on your desk
- > „Clean installation“ through PCI slot cable management

controller MultiCable

1x 150 cm

TIDY INSIDE THE CASE!

Clean layout thanks to **PCI slot cable management**

- > SATA 5 V power cable (40 cm)
- > Digital RGB mainboard adapter cable (50 cm) with 3 pin (+5 V, DATA, GND) connection for MB synchronisation
- > Digital RGB output cable (50 cm)
